DOCTORS IN NEED

Support a doctor and save more than one life

Dear,

With this Gift Card for Gaza, a contribution has been made in your name to Doctors in Need in Gaza. This contribution gives hope, strength, and a future to doctors and other healthcare workers in Gaza.

The volunteer initiative Doctors in Need supports 31 young Palestinian doctors, dentists, pharmacists, nurses, and medical students in Gaza. As the first and last eyewitnesses of the genocide, they are Gaza's final lifeline.

What this Gift Card means

Doctors in Need provides healthcare workers in Gaza with:

- Financial support to continue their work and education
- Professional recognition and visibility
- Safety and emotional guidance

The dignity, needs, and voices of Palestinians are central to Doctors in Need. The doctors participating in the initiative are equal partners; together, we break the traditional donor–recipient dynamic.

The symbol of Doctors in Need is the tayara, the Palestinian kite that stands for hope, dreams, freedom, and boundlessness. Just as a kite rises above walls, your support helps create new stories of resilience and life — far beyond bombs and blockades.

Would you like to do even more? Consider making an additional contribution to Doctors in Need. With every donation, you help the doctors and healthcare workers of Gaza continue serving their community.

You can donate easily through the website www.doctorsinneed.org or via the QR code on this page.

Thank you for supporting the healthcare workers of Gaza — today, tomorrow, and in 2026!
